

Professional Summary

Software Developer (Backend / Java) with 2+ years of experience building **cloud-native microservices, scalable fintech systems, and high-availability payment platforms**. Skilled in **Java, Spring Boot, REST APIs, Kafka, and Snowflake**, with proven success in **reducing downtime (25%)**, optimizing performance (23%), and developing enterprise-grade features at Paymentus, a platform handling **597M+ transactions in FY 2024 for over 2,500 clients and reaching over 100M+ consumers**. Seeking SDE II opportunities focusing on **performance, reliability, and clean architecture**.

Work Experience

- Paxcom India (P) Ltd - A Paymentus Company

Feb' 2023 - Present

Software Engineer (Onsite)

Gurugram
- Integrated Scan To Pay (Cash Provider) Payment Method** using Java & Spring Boot, expanding **transaction processing coverage by 20%** across 597M+ annual payments, deployed in **Dockerized microservices on Kubernetes**.
 - Led the design and implementation of the **Recurring Maintenance Mode System** for Paymentus, a major product feature developed from scratch that **reduced system downtime by 25% and automated 100 hours of manual maintenance tasks monthly**, significantly contributing to a platform trusted by **over 25 Fortune 500 companies**.
 - Designed and developed a **Dynamic Payments Report & Analysis page** that allows users to filter and search transaction reports, presenting the results through interactive charts and data tables for enhanced data visualisation and analysis.
 - Optimised report generation in microservices by integrating Snowflake, **reducing execution time by 23%** and performance, recognised by the Director of Product Development, Paymentus.
 - Mid Level Implementation Tickets** Delivered **~10.25 tickets/month (80% above average)** with consistent quality, ranking among top contributors, demonstrating a commitment to delivering both quantity and quality within a high-volume payment processing environment.

- Shivalik Small Finance Bank

Jun 2022- Jul 2022

SDE intern (Onsite)

Noida
- Received a **letter of recommendation** from the CTO.
- Developed an **API-driven Fraud Risk Management (FRM) algorithm** using **ISO 8583 protocols and JSON-based transaction data**, securing UPI payments of 9.8 Lakh+ customers.
 - Contributed to Core Banking System design, ensuring **protocol harmonization** across 79+ branches and 114 BC branches.
 - Conducted analysis of 100K+ user activities to improve adoption of **API-enabled modern banking facilities**.

- Internshala

Jul 2021 - Sep 2021

Learn Ethical hacking - Trainee

Technical Skills

Languages	DevOps & Tools
Java JavaScript Python SQL/PLSQL FTL	Jira Postman Git Docker Kubernetes CI/CD
Frameworks	Databases
Spring Boot Spring MVC JSP Node.js Microservices Architecture	Oracle MongoDB Snowflake Amazon S3
Others	
REST APIs Kafka Agile Methodologies Linux Shell Scripting Microservices	

Projects

Fraud Risk Management System (UPI Transaction Security) - Designed a UPI fraud detection algorithm based on user behavior (time, location, amount). - Integrated in production to support real-time fraud alerts.	Automated Log Monitoring Tool (Banking Transactions) Analyzed transaction logs (requests/responses) to capture timing, status, and metadata, storing results in a database. Tech Stack: Unix Shell Scripting SED ISO 8583
Easy Chrome – Chrome Extension (Productivity / Dev Tools) Chrome Web Store Built and published a productivity-focused Chrome extension for tab management and dev note-taking using Cursor.	Registration App Link Developed a web application applying the Spring MVC concept. A JSP web app login/registration page using Spring MVC, Tomcat server and Oracle DB.
File Merger Link A tool to merge files i.e. csv	Spring Core Project Link Applied Spring Core for a Web application development.

Education

Jaypee University Of Information Technology, Solan	Jun 2019- Feb 2023
Bachelor of Technology (B.Tech) in Computer Science and Engineering	
7.8 CGPA	

Certifications

Ethical Hacking – Internshala Certificate	Python Core – Sololearn Certificate	Python for Everybody – Coursera Certificate
---	---	---

Volunteering

Robin Hood Army- NGO & Work for food donation	June 2024 - Present
Volunteer	Gurugram
